Travabon® Classic
Specialist Skin Protection Cream

PRODUCT DESCRIPTION
Specialist pre-work cream to protect against heavy exposure to oil-based substances and facilitate skin cleansing.

WHERE TO USE
Work places where hands and arms are in contact with water-insoluble substances such as solvents, metal-working oils and mechanical soiling; where it is not practical or feasible to wear gloves.

NB: Where possible skin exposure to potentially harmful substances and environments should be avoided through the implementation of safe working practices and the use of appropriate Personal Protective Equipment. Where skin exposure cannot be avoided, it is recommended to use an appropriate skin protection cream as part of a complete skin care programme to reduce the risk of occupational skin disease.

INSTRUCTIONS FOR USE
Before Working:
• Apply 1ml to clean and dry skin before starting each work period and after washing hands
• Rub on all areas of the hands, including between the fingers and around the fingernails

After Working:
• Prior to cleaning, apply a small amount of water to hands and rub together to loosen soiling then rinse with running water
• This action will remove most of the soiling from the hands enabling the use of only a light cleanser to remove any remaining soiling

FORMAT: CREAM

<thead>
<tr>
<th>FEATURES</th>
<th>BENEFITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unique dual action formulation</td>
<td>Protects the skin from oil based workplace substances and facilitates effective skin cleansing.</td>
</tr>
<tr>
<td>High mineral content</td>
<td>Forms a robust, highly resistant physical protective layer on the skin, which prevents contaminants from penetrating deeply into the skin.</td>
</tr>
<tr>
<td>Contains Algin</td>
<td>A natural film building hydrocolloid which helps strengthen and reinforce the protective layer on the skin for greater durability.</td>
</tr>
<tr>
<td>Contains a special soil-suspending emulsifier</td>
<td>Blend of surfactants incorporated into the protective layer are activated by pre-rinsing hands with just clean water, enabling the removal of most soiling. This allows use of a light hand cleanser only to remove any remaining soiling.</td>
</tr>
<tr>
<td>Reduces irritation</td>
<td>Scientifically proven to provide protection against the irritating effects of oil/solvent based substances.</td>
</tr>
<tr>
<td>Contains Glycerin</td>
<td>Enhances the water holding capacity of the skin’s upper layers, supporting the skin’s own moisture system and natural barrier function.</td>
</tr>
<tr>
<td>Skin friendly pH</td>
<td>Formulated to maintain the skin’s acid mantle; a layer on the surface of the skin which acts to help support the natural bacteria balance.</td>
</tr>
<tr>
<td>Silicone-free</td>
<td>The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.</td>
</tr>
<tr>
<td>Compatible with rubber production processes</td>
<td>Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.</td>
</tr>

SAFETY DATA SHEETS
For Safety, Environmental, Handling, First Aid and Disposal information please refer to our Safety Data Sheet which can be downloaded from www.debgroup.com/au/msds.

SHELF LIFE
This product has a shelf life of 36 months from the date of manufacture when stored unopened at room temperature.

QUALITY ASSURANCE
SC Johnson Professional products are manufactured in facilities which follow cosmetic Good Manufacturing Practice (cGMP) requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional’s high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

PRODUCT SAFETY ASSURANCE
Skin Compatibility Test
Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in enclosed and repeat application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

Toxicological Approval
The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

COMPATIBILITY TESTS
Rubber Production Process Compatibility
In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Travabon® Classic in rubber production process does not influence the cohesive strength of rubber.

EFFICACY TESTS
Skin Protection Test
Independent testing using an oil based substance known to be very aggressive to the skin (Toluene*) on ex-vivo human skin explants was conducted by The Karlsruhe Skin Clinic. This study demonstrated that Travabon® Classic effectively protects the skin against oil based irritants.

FIGURE 1: an image of the cross section of skin after exposure to the test substance (Toluene) for 90 minutes: large blisters appear below the epidermis of the unprotected skin and result in the epidermis and dermis becoming damaged and detached.

FIGURE 2: an image of the cross section of skin after application of Travabon® Classic and then exposure to Toluence for 90 minutes: the skin remains in normal condition demonstrating the protective effect of Travabon® Classic.

* Toluene was used in this controlled study to demonstrate the benefit of Travabon® Classic. Suitable gloves and PPE should be worn when handling aggressive chemicals such as Toluene.

Hand Cleansing Test
Hand cleansing efficacy was tested using 10 healthy test panellists using a standardised model soil ing (carbon black, iron oxide, graphite, petrolatum, oil, wax). Using only water to remove soil, the level of the residual dirt was assessed. Results show that when rinsed with water alone, 91% of the soil is removed from the skin when the hands are pretreated with Travabon® Classic.

INGREDIENTS

100 ML TUBE
AQUA (WATER), TALC, SODIUM COCOYL ISETHIONATE, GLYCERIN, SILICA, GLYCERYL STEARATE, LAURETH-10, BENTONITE, XANTHAN GUM, ALGIN, SODIUM PHOSPHATE, LACTIC ACID, POTASSIUM SORBATE, DIETHYLHEXYL SODIUM SULFOSUCCINATE, SILVER CHLORIDE, PROPYLENE GLYCOL, TITANIUM DIOXIDE, PARFUM (FRAGRANCE).

1 L CARTRIDGE
AQUA (WATER), TALC, GLYCERIN, SODIUM COCOYL ISETHIONATE, STEARIC ACID, LAURETH-10, DISTARCH PHOSPHATE, POLYGLYCERYL-2 DIPOLYHYDROXYSTEARATE, ALGIN, BENTONITE, XANTHAN GUM, POTASSIUM SORBATE, LACTIC ACID, SODIUM PHOSPHATE, SODIUM ISETHIONATE, DIETHYLHEXYL SODIUM SULFOSUCCINATE, SILVER CHLORIDE, PROPYLENE GLYCOL, TITANIUM DIOXIDE, PARFUM (FRAGRANCE).
